	Inspector Email	
Site Observations		

Asbestos Cleanup

- Hire a certified asbestos abatement company from the list: www.dhs.wisconsin.gov/asbestos/asbestoscompany.pdf.
- Use HEPA vacuum to clean up small debris.
- Use wet methods to pick up large debris.
- Double bag and seal wetted debris.
- Use a plastic lined dumpster.
- Clean personal items and all surfaces using a HEPA vacuum and wet methods.

Lead Cleanup

- Hire a certified asbestos abatement company from the list: www.dhs.wisconsin.gov/lead/contractor/leadcompany.pdf.
- Wrap and seal large components in plastic.
- Pick up large debris and place in waste container. DO NOT use a broom.
- HEPA vacuum and wet wipe all horizontal surfaces.
- Wet clean and/or HEPA vacuum personal items.
- Contain all debris in sealed bags, sealed containers, or lined dumpsters.

Asbestos Waste

- Find landfill from list at dnr.wi.gov/topic/Waste/documents/faclists/WisLic_SWLandfills.pdf.
- Contact landfill to determine whether it accepts your type of material.
- Call waste hauler to schedule a dumpster and dumpster pickup.

Lead Waste

- Properly contained or bagged and sealed debris may be handled as household waste.

Follow-Up Paperwork to DHS

- Notify the DHS inspector when cleanup activities are complete—by no later than: _____
- Submit a copy of the waste receipt.
- Take required training and submit applications to become certified.

Asbestos trainer list: www.dhs.wisconsin.gov/asbestos/training.htm

Lead training list: www.dhs.wisconsin.gov/lead/training.htm

- Submit contract with certified abatement company hired to complete cleanup work.
- Provide name and contact information of certified contractor hired to complete cleanup work.
- Submit the signed Renovate Right acknowledgement page.
- Submit names and contact information for all workers on site.
