#### STATE OF WISCONSIN

Bureau of Environmental and Occupational Health Radiation Protection Section (608) 267-4797

## APPLICATION FOR RADIOACTIVE MATERIAL LICENSE FOR MEDICAL USE

The Wisconsin Department of Health Services (DHS) is requesting disclosure of all information on this application for the purpose of obtaining a radioactive material license. Failure to provide any information may result in denial or delay of a radioactive material license.

**Instructions:** Complete all items if this is an initial application or an application for renewal of a license. Refer to WISREG "Guidance for Medical Use of Radioactive Material." Use supplementary sheets where necessary. Retain one copy and submit original of the entire application to DHS, P.O. Box 2659, Madison, WI 53701-2659

APPLICATION TYPE				
Item 1. Type Of Application (Check one box)				
New License Renewal, License Number				
CONTACT INFORMATION				
Item 2. Name and Mailing Address of Applicant	Item 3. Person to contact regarding this application			
Ameliantia Talanhana Numban (Instituta Aras Cada)	Contact's Telephone Number (Include Area Code)

		JAL(S) RESPONSIBLE FOR RADIATION SAFETY
Item	5.1	Radiation Safety Officer (RSO) (Check all that apply and attach evidence of training and experience)
	rad	will provide the name of the proposed RSO and other potential designees who will be responsible for ensuring that the licensee's lation safety program is implemented in accordance with approved procedures. We will provide documentation showing delegation authority to the Radiation Safety Officer.
Nam	e:	Telephone Number (Include Area Code) ()x
		AND ONE OF THE FOLLOWING
		We will provide the previous license number (if issued by DHS) or a copy of the license (if issued by the NRC or an Agreement State) that authorized the uses requested and on which the individual was specifically named as the RSO.
		OR
	П	We will provide a copy of the certification(s) for the board(s) approved by DHS and as applicable to the types of use for which he
	_	or she has RSO responsibility.
		AND
		We will provide a written attestation, signed by a preceptor RSO, that the above training and experience as specified in s. DHS 157.61 (7) has been satisfactorily completed and that the individual has achieved a level of radiation safety knowledge sufficient to independently function as a RSO. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.
		OR
		We will provide a description of the training and experience specified in s. DHS 157.61(7)(b) demonstrating that the proposed RSO is qualified by training and experience as applicable to the types of use for which he or she has RSO responsibilities. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.
		AND
		We will provide a written attestation, signed by a preceptor RSO, that the above training and experience as specified in s. DHS 157.61 (7) has been satisfactorily completed and that the individual has achieved a level of radiation safety knowledge sufficient to independently function as a RSO. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.
	_	AND, IF APPLICABLE
	Ш	We will provide a description of recent related continuing education and experience as required by s. DHS 157.61(11).
ltem	5.2	Authorized Users (AU) (Check all that apply and attach evidence of training and experience)
	We	will attach a list of each proposed authorized user with the types and quantities of licensed material to be used.
		AND ONE OF THE FOLLOWING FOR EACH AU
		We will provide the previous license number (if issued by DHS) or a copy of the license (if issued by the NRC or an Agreement State) on which the physician was specifically named as an AU for the uses requested.
		OR
		We will provide a copy of the certification(s) for the board(s) approved by DHS and as applicable to the use requested.
		AND We will provide a written attestation, signed by a preceptor AU, that the training and experience as specified in s. DHS 157.63(4)(c); 157.63(5)(c); 157.65(5)(c); 157.65(6)(c); 157.65(8)(b); 157.65(9); or 157.67(17)(b), as applicable, has been satisfactorily completed and that the individual has achieved a level of competency sufficient to function independently as an authorized user. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.
		OR
		We will provide a description of the training and experience as specified in s. DHS 157.63(4)(c); 157.63(5)(c); 157.64(4)(b); 157.65(5)(c); 157.65(6)(c); 157.65(8)(b); 157.65(9); 157.66(b); or 157.67(17)(b), as applicable, demonstrating that the proposed AU is qualified by training and experience for the use requested. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.  AND
		We will provide a written attestation, signed by a preceptor AU, that the above training and experience as specified in s. DHS 157.63(4)(c); 157.63(5)(c); 157.64(4)(b); 157.65(5)(c); 157.65(6)(c); 157.65(8)(b); 157.65(9); or 157.67(17)(b), as applicable, has been satisfactorily completed and that the individual has achieved a level of competency sufficient to function independently as an authorized user. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.
	_	AND, IF APPLICABLE
		We will provide a description of recent related continuing education and experience as required by s. DHS 157.61(11).

F-45008 (Rev. 05/10) Page 3 of 10

Item	5.3	Authorized Nuclear Pharmacist (ANP) (Check all that apply and attach evidence of training and experience)				
	Not	applicable				
	We	will provide the name(s) of the authorized nuclear pharmacist(s).				
Name Telephone Number (Include Area Code) (						
AND ONE OF THE FOLLOWING FOR EACH ANP						
		We will provide the previous license number (if issued by DHS) or a copy of the license (if issued by the NRC or an Agreement State) on which the individual was specifically named ANP.				
		OR				
		We will provide a copy of the certification(s) for the radiopharmacy board(s) approved by DHS.				
		AND				
		We will provide a written attestation, signed by a preceptor ANP, that the training and experience as specified in s. DHS 157.61(9) has been satisfactorily completed and that the individual has achieved a level of competency sufficient to function independently as an authorized nuclear pharmacist. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.				
		OR				
		We will provide a description of the training and experience specified in s. DHS 157.61(9)(b) demonstrating that the proposed ANP is qualified by training and experience. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.				
		AND				
		We will provide a written attestation, signed by a preceptor ANP, that the training and experience as specified in s. DHS 157.61(9) has been satisfactorily completed and that the individual has achieved a level of competency sufficient to function independently as an authorized nuclear pharmacist. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.				
	۱۸/۵	AND, IF APPLICABLE will provide a description of recent related continuing education and experience as required by s. DHS 157.61(11).				
	Not	Authorized Medical Physicist (AMP) (Check all that apply and attach evidence of training and experience)  applicable  COMPLETE ONLY IF REQUESTING LICENSE AUTHORIZATION FOR:  HDR, GAMMA STEREOTACTIC RADIOSURGERY UNIT, TELETHERAPY OR OPHTHALMIC USE				
	We	will provide the name(s) of the authorized medical physicist(s).				
	Nar	me: TELEPHONE (Include Area Code): () x				
		AND ONE OF THE FOLLOWING FOR EACH AMP				
		We will provide the previous license number (if issued by DHS) or a copy of the license (if issued by the NRC or an Agreement State) on which the individual was specifically named AMP.				
		OR We will provide a copy of the certification(s) for the board(s) approved by DHS				
		We will provide a copy of the certification(s) for the board(s) approved by DHS.				
		We will provide a copy of the certification(s) for the board(s) approved by DHS.  AND  We will provide a written attestation, signed by a preceptor AMP, that the training and experience as specified in s. DHS 157.61(8) has been completed and the individual has achieved a level of competency sufficient to function independently as an authorized medical physicist. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that				
		We will provide a copy of the certification(s) for the board(s) approved by DHS.  AND  We will provide a written attestation, signed by a preceptor AMP, that the training and experience as specified in s. DHS 157.61(8) has been completed and the individual has achieved a level of competency sufficient to function independently as an authorized medical physicist. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.  OR  We will provide a description of the training and experience specified in s. DHS 157.61(8)(b) demonstrating that the proposed AMP is qualified by training and experience. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.				
		We will provide a copy of the certification(s) for the board(s) approved by DHS.  AND  We will provide a written attestation, signed by a preceptor AMP, that the training and experience as specified in s. DHS 157.61(8) has been completed and the individual has achieved a level of competency sufficient to function independently as an authorized medical physicist. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.  OR  We will provide a description of the training and experience specified in s. DHS 157.61(8)(b) demonstrating that the proposed AMP is qualified by training and experience. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.  AND				
		We will provide a copy of the certification(s) for the board(s) approved by DHS.  AND  We will provide a written attestation, signed by a preceptor AMP, that the training and experience as specified in s. DHS 157.61(8) has been completed and the individual has achieved a level of competency sufficient to function independently as an authorized medical physicist. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.  OR  We will provide a description of the training and experience specified in s. DHS 157.61(8)(b) demonstrating that the proposed AMP is qualified by training and experience. See Appendix B of WISREG "Guidance for Medical Use of Radioactive Material" for a form that may be used for this purpose.				

We will provide a description of recent related continuing education and experience as required by s. DHS 157.61(11).

F-45008 (Rev. 05/10) Page 4 of 10

<u> </u>	TRAINING FOR WORKERS				
Item 6 Training For Individuals Working In Or Frequenting Restricted Areas (Check one box)					
	We will follow the training programs described in Appendix H of WISREG "Guidance for Medical Uses of Radioactive Material".				
	OR				
	We will develop and implement and maintain a training program that will meet the criteria in the section titled 'Training for Individuals Working in or Frequenting Restricted Areas' of WISREG "Guidance for Medical Use of Radioactive Material." (Description is attached)				

# RADIOACTIVE MATERIAL

Item 7.1 Purpose(s) For Which Licensed Radioactive Material Will Be Used. (Attach additional pages if necessary)

	Chemical		Sealed Source	Sealed Source	
Type of Use – Check Box if Use is Desired	and Physical Form	Maximum Amount (Curies)	Device Registration Sheet Number	Manufacturer or Distributor Model Number	Device Manufacturer or Distributor Model Number

## Item 7.2 Recordkeeping for Decommissioning and Financial Assurance

The applicant is not required to submit proof of recordkeeping for decommissioning and financial assurance during the licensing phase. This matter will be examined during an inspection.

F-45008 (Rev. 05/10) Page 6 of 10

FAC	ILITIES AND EQUIPMENT		
Item 8.1 Facilities Diagram (Check box and attach requested information.)			
	We will submit the information in the section titled 'Facilities Diagram' in WISREG "Guidance for Medical Use of Radioactive Material."		
Item	8.2 Radiation Monitoring Instruments (Check all that apply)		
	We will identify the instrument type, sensitivity, range for each type of radiation detected and state whether the instrument will be used for 'measuring' or 'detection'. Additionally if only one survey instrument is to be used we will describe what is done when the survey instrument is being calibrated or repaired.		
	AND		
	We reserve the right to upgrade our survey instruments as necessary as long as they are adequate to measure the type and level of radiation for which they are used.		
	AND		
	We will provide a description of the instrumentation (e.g. gamma counter, solid state detector, portable or stationary count rate meter, portable or stationary dose rate or exposure rate meter, single or multichannel analyzer, liquid scintillation counter, proportional counter) that will be used to perform required surveys or leak testing and analysis.		
	AND ONE OF THE FOLLOWING		
	We will use radiation monitoring instruments that will be calibrated by a person authorized by DHS, the NRC or an Agreement State to perform survey meter calibrations.		
	OR		
	We will follow survey meter calibration procedures in accordance with Appendix I of WISREG "Guidance for Medical Use of Radioactive Material."		
Item	8.3 Dose Calibrator And Other Equipment Used To Measure Dosages Of Unsealed Radioactive Material (Check all that apply)		
	Not applicable. (Will only use unit doses or no unsealed radioactive material use)		
	OR		
	We will identify the instrument type, manufacturer, and model number. Additionally, if only one dose calibrator is possessed, we will describe what is done when the dose calibrator is being calibrated or repaired.		
	AND		
	Equipment used to measure dosages will be calibrated in accordance with nationally recognized standards or the manufacturer's instructions.		
	AND IF REQUESTING AUTHORIZATION FOR DHS 157.64(1) MATERIAL,  Beta-emitting radiopharmaceuticals will be ordered and administered as unit doses only.		
	OR  Procedures for verifying the activity of beta-emitting radiopharmaceuticals in a dose calibrator are attached.		
	- 1 Tooleanes for verifying the activity of beta emitting radiopharmaceuticals in a dose calibrator are attached.		
Item	8.4 Dosimetry Equipment – Calibration And Use (Check all that apply)		
	COMPLETE THIS SECTION ONLY IF REQUESTING LICENSE AUTHORIZATION FOR: HDR, GAMMA STEREOTACTIC RADIOSURGERY UNIT, TELETHERAPY OR BRACHYTHERAPY USE		
	We will calibrate dosimetry equipment in accordance with the requirements in s. DHS 157.67 (6).		
	AND		
	We have developed and will implement a written calibration procedure for a therapy sealed source that meets the requirements in s. DHS 157.65 (6) and s. DHS 157.67 (6-12) (as applicable to the type of medical use requested).		
	AND		
	We will identify the dosimetry system, manufacturer and model number.		
Item	8.5 Other Equipment And Facilities (Check box and attach requested information)		
	A detailed description of additional equipment and facilities available for the safe use and storage of radioactive materials requested is attached.		

F-45008 (Rev. 05/10) Page 7 of 10

RADIATION PROTECTION PROGRAM
Item 9.1 Audit Program
The applicant is not required to submit its audit program to DHS for review during the licensing phase. This matter will be examined during an inspection.
Item 9.2 Occupational Dose (Check all that apply)
We will provide a description of facilities and equipment used for monitoring occupational exposure. (Description is attached)
AND ONE OF THE FOLLOWING
We will follow the procedures in Appendix L of WISREG "Guidance for Medical Use of Radioactive Material" for monitoring occupational dose.
OR
We have developed and will implement written procedures for monitoring occupational dose in accordance with s. DHS 157.21 and that meets the requirements in Chapter DHS 157 "Radiation Protection", Subchapter III "Standards for Protection from Radiation". (Procedures are attached)
Item 9.3 Public Dose
No response is required in this license application; however, the licensee's evaluation of public dose will be examined during an inspection.
Item 9.4 Minimization Of Contamination (Check one box)
We will follow the cleanup procedures from Appendix R, Tables 9 and 10, of WISREG "Guidance for Medical Use of Radioactive Material" to minimize the amount of radioactive contamination and radioactive waste generated at our facility.
OR
We will develop, implement and maintain procedures to minimize the amount of radioactive contamination and radioactive waste generated at our facility. (Procedures are attached.)
Item 9.5 Operating And Emergency Procedures
No response is required in this license application; however, the licensee's operating and emergency procedures will be examined during an inspection.
Item 9.6 Material Receipt And Accountability (Check one box)
Physical inventories will be conducted at intervals not to exceed 6 months, to account for all sealed sources and devices received and possessed under the license.
OR
We will submit a description of the frequency and procedures for ensuring that no radioactive material has been lost, stolen or misplaced (Procedures are attached).
Item 9.7 Ordering And Receiving (Check one box)
We will develop, implement and maintain ordering and receiving procedures that will meet the criteria in the section entitled 'Ordering and Receiving' of WISREG "Guidance for Medical Use of Radioactive Material." (Procedures are attached)
OR
We will follow procedures for ordering and receiving in accordance with Appendix O of WISREG "Guidance for Medical Use of Radioactive Material."
Item 9.8 Opening Packages
No response is required in this license application; however, the licensee's package opening procedure will be examined during an

inspection.

F-45008 (Rev. 05/10) Page 8 of 10

Item 9.1 Leak Test (Check one box)   Leak tests will be performed by par organization authorized by DHS, the NRC or an Agraement State to provide leak testing sopries to other incensees or by using a teak test list supplied by an organization iscensed by DHS, the NRC or an Agraement State to provide leak test list supplied by an organization iscensed by DHS, the NRC or an Agraement State to provide leak test list to other incensees according to kit suppliers' instructions.  List the name and license number of organization authorized to perform or analyze leak test (Specify whether DHS, NRC, or other Agraement State).  Organization Name:   License Number:   License Number:   License Number:   Organization is specifically authorized by DHS, the NRC or an Agraement State.  OR   We will perform our own leak testing and sample analysis. We will follow the procedures in Appendix Q of WISREG "Guidance for Medical Use of Radioactive Material."   OR   We will submit alternative procedures. (Procedures are attached)   We will develop, implement and maintain procedures for area surveys that will meet the criteria in the section titled 'Area Surveys' in WISREG "Guidance for Medical Use of Radioactive Material." (Procedures are attached)   We will develop, implement and maintain procedures (Area Musterial Requiring A Written Directive (Check one box)   We will develop, implement and maintain procedures for administration of radioactive material requiring a written directive that will meet the criteria in the section titled 'Area Surveys' in Appendix R or WisREG 'Guidance for Medical Use of Radioactive Material."   OR   We will develop, implement and maintain procedures for administration of radioactive material that will meet the criteria in the section titled 'Sale Use of Radioactive Material."   OR   OR   We will develop, implement and maintain procedures for the safe use of unsealed radioactive material that will meet the criteria in the section titled 'Sale Use of Unsealed Radioactive Material."   OR   We will follow			
services to other licensees; or by using a leak test kits supplied by an organization licensed by DHS, the NRC or an Agreement State to provide leak test kits to ther licensees according to kit suppliers instructions.  Lict the name and license number of organization authorized to perform or analyze leak test (Specify whether DHS, NRC, or other Agreement State):  Organization Name:	Item	9.9 Leak Test (Check one box)	
Agreement State):  Organization Name:  License Number:  Note: An alternate organization may be used to perform or analyze leak test, without amending the license, provided the organization is specifically authorized by DHS, the NRC or an Agreement State.  OR  We will perform our own leak testing and sample analysis. We will follow the procedures in Appendix Q of WISREG "Guidance for Medical Use of Radioactive Material."  OR  We will submit alternative procedures. (Procedures are attached)  Item 9.10 Area Surveys (Check one box)  We will develop, implement and maintain procedures for area surveys that will meet the criteria in the section titled 'Area Surveys' in WISREG 'Guidance for Medical Use of Radioactive Material." (Procedures are attached)  OR  We will follow the procedures for area survey in Appendix R of WISREG "Guidance for Medical Use of Radioactive Material."  Item 9.11 Procedures For Administration of Radioactive Material Requiring A Written Directive (Check one box)  We will develop, implement and maintain procedures for administrations requiring a Written Directive in WISREG "Guidance for Medical Use of Radioactive Material."  Item 9.11 Procedures For Administration of Radioactive Material Requiring A Written Directive (Check one box)  We will develop, implement and maintain procedures for Administrations Requiring a Written Directive in WISREG "Guidance for Medical Use of Radioactive Material."  OR  Not Applicable.  Item 9.12 Safe Use of Unsealed Radioactive Material (Check one box)  We will develop, implement and maintain procedures for the safe use of unsealed radioactive material that will meet the criteria in the section ntitled 'Safe Use of the safe use of unsealed radioactive material that will meet the criteria in the section titled 'Safe Use of the safe use of unsealed radioactive material that will meet the criteria in the section titled 'Safe Use of the safe use of unsealed radioactive material that will meet the criteria in the section titled 'Safe Use of the safe use of unsealed radio		services to other licensees; or by using a leak test kit supplied by an organization licensed by DHS, the NRC or an	
Note: An alternate organization may be used to perform or analyze leak test, without amending the license, provided the organization is specifically authorized by DHS, the NRC or an Agreement State.  OR  We will perform our own leak testing and sample analysis. We will follow the procedures in Appendix Q of WiSREG "Guidance for Medical Use of Radioactive Material."  OR  We will submit alternative procedures. (Procedures are attached)  Item 9.10 Area Surveys (Check one box)  We will develop, implement and maintain procedures for area surveys that will meet the criteria in the section titled 'Area Surveys' in WiSREG 'Guidance for Medical Use of Radioactive Material." (Procedures are attached)  OR  We will follow the procedures for area survey in Appendix R of WiSREG 'Guidance for Medical Use of Radioactive Material."  Item 9.11 Procedures For Administration of Radioactive Material Requiring A Written Directive (Check one box)  We will develop, implement and maintain procedures for administrations Requiring a Written Directive that will meet the criteria in the section entitled 'Procedures for Administrations Requiring a Written Directive' in WISREG 'Guidance for Medical Use of Radioactive Material."  OR  Not Applicable.  Not He FOLLOWING THREE CONDITIONS MUST BE MET  We will name the proposed employee or employees and types of maintenance and repair requested.  AND  We will provide a description of the training and experience demonstrating that th			
organization is specifically authorized by DHS, the NRC or an Agreement State.  OR  We will perform our own leak testing and sample analysis. We will follow the procedures in Appendix Q of WISREG "Guidance for Medical Use of Radioactive Material."  OR  We will submit alternative procedures. (Procedures are attached)  Item 9.10 Area Surveys (Check one box)  We will develop, implement and maintain procedures for area surveys that will meet the criteria in the section titled 'Area Surveys' in WISREG "Guidance for Medical Use of Radioactive Material." (Procedures are attached)  OR  We will follow the procedures for area survey in Appendix R of WISREG "Guidance for Medical Use of Radioactive Material."  Item 9.11 Procedures For Administration of Radioactive Material Requiring A Written Directive (Check one box)  We will develop, implement and maintain procedures for administration of adioactive material requiring a written directive that will meet the criteria in the section entitled 'Procedures for Administrations Requiring a Written Directive' in WISREG "Guidance for Medical Use of Radioactive Material."  OR  Not Applicable.  Item 9.12 Safe Use Of Unsealed Radioactive Material (Check one box)  We will develop, implement and maintain procedures for the safe use of unsealed radioactive material that will meet the criteria in the section entitied 'Sale Use of Unsealed Radioactive Material." (Procedures are attached)  OR  We will follow the procedures for the safe use of unsealed radioactive material in Appendix T of WISREG "Guidance for Medical Use of Radioactive Material."  OR  Not Applicable.  Not Applicable. (No therapy Devices Containing Sealed Sources)  OR  We will contract with personnel who are licensed by DHS, the NRC or an Agreement State to perform maintenance and repair services on the specific therapy device(s) possessed by the licensee.  OR THE FOLLOWING THREE CONDITIONS MUST BE MET  We will provide a description of the training and experience demonstrating that the proposed employee or employees is/are		Organization Name: License Number:	
We will perform our own leak testing and sample analysis. We will follow the procedures in Appendix Q of WISREG "Guidance for Medical Use of Radioactive Material." OR  Not Applicable.  Item 9.13 Maintenance Of Therapy Devices Containing Sealed Sources (Check all that apply)  Not Applicable, (No therapy devices containing Sealed Sources)  OR  We will contract with personnel who are licensed by DHS, the NRC or an Agreement State to perform maintenance and repair services on the specific therapy device(s) possessed by the licensee.  OR THE FOLLOWING THREE CONDITIONS MUST BE MET  We will name the proposed employee or employees and types of maintenance and repair requested.  AND  We will provide a description of the training and experience demonstrating that		OR	
We will submit alternative procedures. (Procedures are attached)   Item 9.10 Area Surveys (Check one box)   We will develop, implement and maintain procedures for area surveys that will meet the criteria in the section titled 'Area Surveys' in WiSREG "Guidance for Medical Use of Radioactive Material." (Procedures are attached)   OR		We will perform our own leak testing and sample analysis. We will follow the procedures in Appendix Q of WISREG "Guidance for Medical Use of Radioactive Material."	
Item 9.10 Area Surveys (Check one box)  We will develop, implement and maintain procedures for area surveys that will meet the criteria in the section titled 'Area Surveys' in WISREG 'Guidance for Medical Use of Radioactive Material.' (Procedures are attached)  OR  We will follow the procedures for area survey in Appendix R of WISREG 'Guidance for Medical Use of Radioactive Material."  Item 9.11 Procedures For Administration of Radioactive Material Requiring A Written Directive (Check one box)  We will develop, implement and maintain procedures for administration of radioactive material requiring a written directive that will meet the criteria in the section entitled 'Procedures for Administrations Requiring a Written Directive' in WISREG 'Guidance for Medical Use of Radioactive Material.'  OR  Not Applicable.  Item 9.12 Safe Use of Unsealed Radioactive Material (Check one box)  We will develop, implement and maintain procedures for the safe use of unsealed radioactive material that will meet the criteria in the section titled 'Safe Use of Unsealed Radioactive Material' in WISREG 'Guidance for Medical Use of Radioactive Material.' (Procedures are attached)  OR  We will follow the procedures for the safe use of unsealed radioactive material in Appendix T of WISREG 'Guidance for Medical Use of Radioactive Material.'  OR  Not Applicable.  Item 9.13 Maintenance Of Therapy Devices Containing Sealed Sources (Check all that apply)  Not Applicable. (No therapy devices containing sealed Sources)  OR  We will contract with personnel who are licensed by DHS, the NRC or an Agreement State to perform maintenance and repair services on the specific therapy device(s) possessed by the licensee.  OR THE FOLLOWING THREE CONDITIONS MUST BE MET  We will name the proposed employee or employees and types of maintenance and repair requested.  AND  We will provide a description of the training and experience demonstrating that the proposed employee or employees is/are qualified by training and experience for the use requested.		OR	
We will develop, implement and maintain procedures for area surveys that will meet the criteria in the section titled 'Area Surveys' in WISREG "Guidance for Medical Use of Radioactive Material." (Procedures are attached)  OR  We will follow the procedures for area survey in Appendix R of WISREG "Guidance for Medical Use of Radioactive Material."  Item 9.11 Procedures For Administration of Radioactive Material Requiring A Written Directive (Check one box)  We will develop, implement and maintain procedures for administration of radioactive material requiring a written directive that will meet the criteria in the section entitled 'Procedures for Administrations Requiring a Written Directive' in WISREG "Guidance for Medical Use of Radioactive Material."  OR  Not Applicable.  Item 9.12 Safe Use Of Unsealed Radioactive Material (Check one box)  We will develop, implement and maintain procedures for the safe use of unsealed radioactive material that will meet the criteria in the section titled 'Safe Use of Unsealed Radioactive Material' in WISREG "Guidance for Medical Use of Radioactive Material."  OR  We will follow the procedures for the safe use of unsealed radioactive material in Appendix T of WISREG "Guidance for Medical Use of Radioactive Material."  OR  Not Applicable.  Item 9.13 Maintenance Of Therapy Devices Containing Sealed Sources (Check all that apply)  Not Applicable. (No therapy devices containing sealed sources)  OR  We will contract with personnel who are licensed by DHS, the NRC or an Agreement State to perform maintenance and repair services on the specific therapy device(s) possessed by the licensee.  OR THE FOLLOWING THREE CONDITIONS MUST BE MET  We will name the proposed employee or employees and types of maintenance and repair requested.  AND  We will provide a description of the training and experience demonstrating that the proposed employee or employees is/are qualified by training and experience for the use requested.		We will submit alternative procedures. (Procedures are attached)	
WISREG "Guidance for Medical Use of Radioactive Material." (Procedures are attached) OR  We will follow the procedures for area survey in Appendix R of WISREG "Guidance for Medical Use of Radioactive Material."  Item 9.11 Procedures For Administration of Radioactive Material Requiring A Written Directive (Check one box)  We will develop, implement and maintain procedures for administration of radioactive material requiring a written directive that will meet the criteria in the section entitled Procedures for Administrations Requiring a Written Directive" in WISREG "Guidance for Medical Use of Radioactive Material."  OR  Not Applicable.  Item 9.12 Safe Use Of Unsealed Radioactive Material (Check one box)  We will develop, implement and maintain procedures for the safe use of unsealed radioactive material that will meet the criteria in the section intitled 'Safe Use of Unsealed Radioactive Material' in WISREG "Guidance for Medical Use of Radioactive Material."  OR  We will follow the procedures for the safe use of unsealed radioactive material in Appendix T of WISREG "Guidance for Medical Use of Radioactive Material."  OR  Not Applicable.  Item 9.13 Maintenance Of Therapy Devices Containing Sealed Sources (Check all that apply)  Not Applicable. (No therapy devices containing sealed sources)  OR  We will contract with personnel who are licensed by DHS, the NRC or an Agreement State to perform maintenance and repair services on the specific therapy device(s) possessed by the licensee.  OR THE FOLLOWING THREE CONDITIONS MUST BE MET  We will provide a description of the training and experience demonstrating that the proposed employee or employees is/are qualified by training and experience for the use requested.  AND	Item	9.10 Area Surveys (Check one box)	
We will follow the procedures for area survey in Appendix R of WISREG "Guidance for Medical Use of Radioactive Material."			
Item 9.11 Procedures For Administration of Radioactive Material Requiring A Written Directive (Check one box)  We will develop, implement and maintain procedures for administration of radioactive material requiring a written directive that will meet the criteria in the section entitled 'Procedures for Administrations Requiring a Written Directive' in WISREG "Guidance for Medical Use of Radioactive Material."  OR  Not Applicable.  Item 9.12 Safe Use Of Unsealed Radioactive Material (Check one box)  We will develop, implement and maintain procedures for the safe use of unsealed radioactive material that will meet the criteria in the section titled 'Safe Use of Unsealed Radioactive Material' in WISREG "Guidance for Medical Use of Radioactive Material."  (Procedures are attached)  OR  We will follow the procedures for the safe use of unsealed radioactive material in Appendix T of WISREG "Guidance for Medical Use of Radioactive Material." Item	Item 9.14 Spill Procedures (Check one box)		
	We will develop, implement and maintain procedures for response to spills of radioactive material. (Procedures are attached.)		
	OR		
	We will follow procedures for response to spills of radioactive material in accordance with Appendix N of WISREG "Guidance for Medical Use of Radioactive Material".		
	OR		
	Not Applicable. (Unsealed radioactive material not used)		
Item	9.15 Emergency Response For Sealed Sources Or Devices Containing Sealed Sources (Check one box)		
	We will develop, implement and maintain procedures for emergency response for sealed sources or devices containing sealed sources. (Procedures are attached)		
	OR		
	Not Applicable. (Brachytherapy sources, high activity sealed sources or devices containing sealed sources not used)		
Item	9.16 Release of Patients Or Human Research Subjects (Check one box)		
	We will develop, implement and maintain procedures for release of patients or human research subjects that will meet the criteria in the section titled 'Release of Patients or Human Research Subjects' in WISREG "Guidance for Medical Use of Radioactive Material." (Procedures are attached)		
	OR		
	We will follow the procedures for release of patients or human research subjects in Appendix U of WISREG "Guidance for Medical Use of Radioactive Material."		
	OR		
	Not applicable. (Studies only performed under s. DHS 157.63(1) & (2))		
Item	Item 9.17 Mobile Medical Service (Check one box)		
	We will provide the information requested, along with any procedures mentioned in Appendix V of WISREG "Guidance for Medical Use of Radioactive Material." (Procedures are attached)		
	OR		
	Not applicable.		
Item	Item 9.18 Transportation		
	No response is needed during the license process; this issue will be reviewed during inspection.		
<b>Note</b> : Before offering a Type B package for shipment, a licensee needs to have registered as a user of the package and obtained the departments approval of its QA Program. Alternatively, the licensee may choose to transfer possession of radioactive material to a manufacturer (or distributor) (or service licensee) with a DHS, NRC or agreement state license who then acts as the shipper.			
Item Item Item	Item 9.19 Sealed Source Inventory Item 9.20 Records of Dosages and Use of Brachytherapy Source Item 9.21 Safety Procedures For Treatments Where Patients Are Hospitalized Item 9.22 Recordkeeping Item 9.23 Reporting		

No response is needed during the licensing process; these issues will be reviewed during inspection.
